PREFACE.

Major W. B. Wetmore is one of the oldest collectors, though not in age, in the United States, having been forming the following collection since about 1860, which we are commissioned to catalogue and sell at auction without reserve.

There are many very desirable coins here offered, notably the grand old King of American Coins,

The 1804 Dollar

a coin the possession of which has afforded Major Wetmore much pleasure for nearly thirty years. There are many other desirable coins in the sale, the gold being notably good. The 1863 quarter eagle; the three dollars of 1875 and 1876 are of extreme rarity.

In the silver the rare dates are all represented and will enable several collectors to fill gaps in their sets, and particularly dollars of 1794, 1804, 1836 Gobrecht in field, 1838, 1839, 1851, 1852, 1858; half dollars 1796, 1797; quarters 1823, 1827; dime 1804; half dime 1802. Magnificent cents. Rare half cents. Fine currency, solid disk 25c., etc.

Collectors are requested to carefully examine their bids before sending them in, remembering to make their bid so much each piece except in proof sets and where lot is stated; and that no lot is separated. Our grades of condition have been established now nearly 30 years and are uniform and well known and the coins will meet the condition stated, no more, or less. Our motto is: fairness to seller and buyer. Many letters have just been received from successful bidders at the great Smith collection sale just closed, (several of our bidders securing over $1,000 worth each) telling us how much pleased they were with the coins bought.

On bids entrusted to our care we make a charge of 10% on the *amount purchased* (no charge unless purchase is made). This fee is for entering, purchasing at sale, and forwarding goods bought. The auctioneers will receive bids and execute them free of charge, but they assume no responsibility and require payment before delivery.

We guarantee all the coins and medals to be genuine.

Catalogues illustrated with five plates showing the rare coins, especially valuable to collectors on account of the 1804 Dollar. Sent before sale, price $1.00

Plate catalogue sent before sale, to be returned and priced after sale 1.50

Plain catalogue priced after sale..... .65

GOLD PROOF SETS.

Each contains the complete gold coins of the year unless otherwise mentioned. These proof sets are exceedingly rare, and our estimate would be that there are not over five sets in existence of these dates. All are brilliant proofs, and are sold at so much per set.

148 1863 $20, $10, $5, $3, $2½, $1. The $2½ extremely rare, only thirty pieces coined, and of these Mr. J. F. McCoy informed us some were melted at the Mint, $3 and $1 very rare. Complete set 6 pcs.
149 1864 $20, $10, $5, $3, $2½, $1. The $3, $2½, $1, very rare. Complete set. 6 pcs.
150 1866 $20, $10, $5, $3, $2½, $1. The $3, $2½ $1, very rare. Complete set. 6 pcs.
151 1867 $20, $10, $5, $3, $2½, $1. The $3, $2½, $1, very rare. Complete set. 6 pcs.
152 1868 $20, $10, $5, $3, $2½, $1. Complete set. 6 pcs.
153 1869 $20, $10, $5, $3, $2½, $1. The half eagle, $3, very rare. Complete set. 6 pcs.

154 1870 $20, $10, $5, $3, $2½, $1. Complete set 6 pcs.

155 1871 $20, $10, $5, $3, $2½, $1. Complete set. 6 pcs.

156 1872 $20, $10, $5, $3, $2½, $1. Half eagle, $3, quarter eagle, $1, rare. Complete set. 6 pcs.

157 1873 $20, $10, $5, $3. $3 excessively rare, only 25 coined. The eagle is rare, only 825 struck. It lacks the $2½ and $1. 4 pcs.

158 1875 $20, $10, $5, $3, $2½, $1. Of this set, with the exception of the $20 all the pieces are very rare. Of the $10 only 120 were struck; of the $5 only 220; of the $3 only 20 pieces; of the $2½ piece 420; of the dollar 420. As only 20 $3 were coined there could not have been more than twenty sets struck. We once bought in Europe two sets of this year lacking the $3 which no doubt were used for cuff buttons. The $3 alone sold at our Wilcox sale in 1901 for $205, and would bring vastly more to-day. Complete set of excessive rarity, 6 pcs.

159 1876 $20, $10, $5, $3, $2½, $1. Of the eagles there were struck 732, half eagles 1,477; of the three dollars only 45; of the dollars 3,425. Complete set. 6 pcs.

160 1877 $20, $10, $5, $3, $2½, $1. Of the eagles there were 817 struck, of the half eagles 1,152; of the three dollars 1,488; of the quarter eagles 1,652; of the dollars 3,920. Complete set 6 pcs.

161 1878 $20, $10, $5, $3, $2½, $1. Of the dollars, 3,020 were struck. Complete set. 6 pcs.

162 1879 $20, $10, $5, $3, $2½, $1. Of the three dollars 3,030 were coined; the dollars 3,030. Complete set. 6 pcs.

163 1880 $20, $10, $5, $3, $2½, $1. Of the three dollars 1,036; of the quarter eagles 3,986; of the dollars 1,636. Complete set. 6 pcs.

164 1881 $20, $5, $3, $2½, $1. It lacks the $10, which

is one of the commonest pieces. Of the $20 there were coined 2,260; of the three dollars 550; of the quarter eagles 680; of the dollars 7,660. 5 pcs.

Note.—The numbers coined include proofs and impressions for circulation; of the former only a very few were struck, usually under fifty.

208 1804 Upper right hand star almost touches letter Y. Rev. STATES OF, about equally spaced between Eagle's wings. Borders circle of beads within a rim. Lettering on edge lightly struck, and invisible on part of the periphery as in all the other six specimens. Weight 410-¼grs., which is correct, as the difference between this and the average weight of the very fine specimens, 415-8/10 grs., legal standard 416 grs., has been lost by wear, as it has evidently been much circulated, sufficiently to have caused it to have lost this difference of about 5 grains. It has evidently been in actual circulation and bears no appearance whatever of a piece rubbed purposely to make it look old. It is the only specimen that shows having been in circulation. We guarantee it to be genuine and original like the specimen in the U. S. Mint.

PLATE III

WETMORE COLLECTION

The record of the previous ownership of this piece is as follows: Major Wetmore purchased of Mr. Parmelee in 1878 for $600, who had bought it at the sale of the H. S. Adams collection, 1876, at $500, and Mr. Adams had purchased it at the sale of Col. M. I. Cohen's collection the year before at $325. In the catalogue of the collection of Col. Cohen of Baltimore Mr. Edward Cogan, the venerable numismatist, described it as follows: "This extremely rare Dollar was procured from Richmond, Virginia, where it was known to Colonel Cohen to exist for many years before it came into his possession. It has been more circulated than either of the two previously sold at Auction, and has every appearance of having been struck in the year of its date, and is guaranteed to be original." A year after the sale we remember conversing with Col. Cohen, and he confirmed the statement made by Mr. Cogan.

The 1804 dollar was first published by Messrs. Eckfeldt & DuBois, Assayers of the Mint, in their Manual of Coins in 1842, in which they placed it on one of their plates made by the ruling engine, (which traces the image mechanically, and it is therefore almost as good a record as a photographic plate,) without comment as to its rarity, and evidently simply chose it as the finest impression of the type in the Mint collection. This was fifteen years before the first restrike and the high values upon U. S. coins, which tempted later restrikes or fabrications. In 1843, according to a letter which the late Matthew A. Stickney wrote us, he exchanged with the Government authorities an IMMUNE COLUMBIA in gold for a duplicate, and we thus have two direct witnesses that the dollar was there in 1843. Of this first class of

impressions only six are known to exist, and three of these; No. 1, the Mint specimen,—No. 2, the Appleton specimen, now in the Library of the Mass. Historical Society,—No. 3, Byron Reed specimen, formerly of the Parmelee collection, and now in the City Museum of Omaha,—are forever out of the reach of the collector, thus leaving but three specimens which could come upon the market. In addition to this class of impressions there are two series of restrikes that were made in the U. S. Mint.

Restrike A. with a new reverse die and plain edges, and deficient in weight. There are two of these known to be in existence. One in the Mint.

Restrike B. Very similar appearance to the originals, but invariably with errors in the lettering of the edges, two or three of the letters being doubled. Of this latter class there are four or five in existence.

Superficial numismatists and would-be experts on the 1804 dollar have thought that they discovered evidence that it was not contemporaneous in its border, which is a circle of beads within a raised rim, and not long serrated points like the dollars of the previous years, but in such a case the other coins of the year should be studied. We did so, and found that *the same border is employed on the dime* on both the obverse and the reverse dies. This discovery forever sets at rest the question of the border, and is one of the strongest points to prove the contemporaneous execution of the dollar. Plate III. (copyright)
